

Phase 1: FLOW Quick Guide

Your first job: check channels, scheduled posts, and delivery results.

Use the password provided by Blair. Never share it.

1 Open FLOW

- Sign in, then choose FLOW from the top menu.
- Choose the correct brand from the brand menu.
- Channels: confirm the right Buffer accounts say Connected.
- Queue: see posts waiting to publish.
- Calendar: see when posts are scheduled.
- Activity: see what was sent or failed.

2 Daily check - 5 minutes

- Open Activity and press Refresh once.
- Confirm today's posts are Sent or still Scheduled.
- Open failed items and note the brand, channel, and time.
- If a live-post link appears, open it for a quick visual check.

What the statuses mean

- Connected: Buffer account is available.
- Confirmed or Scheduled: Buffer accepted it and it is waiting.
- Sent: Buffer reports that the post published.
- Failed: the post needs attention.
- Pending: wait, then press Refresh once.

If something goes wrong

- Press Refresh once. Do not keep clicking.
- If it failed, take one screenshot of the full error.
- Send the screenshot, brand name, and time to Blair.
- Do not disconnect channels or change brand settings.
- FLOW is read-only. It does not create, edit, cancel, or publish posts.

Before you leave

Confirm there are no unexplained Failed items, then use Sign out in the top-right corner.
